Conference
Change in Public Services:
Fora for the expertise in Restructuring
Brussels, 16 – 17 February 2012

Dear Madam,

Dear Sir,

We are pleased to invite you to the above-mentioned conference on “Change in Public Services”.

The economic, financial and social crisis is seriously impacting our economy. Increased requirements together with budgets constraints, lower private and public consumptions put public services providers under strong pressure throughout Europe. Employers and Trade-Unions are both impacted by this situation.

The conference will present the outcomes of the “Change in Public Services” project and will be an opportunity to meet with other public services’ social partners to exchange information and practices on key issues for our future: financing of public services: how to provide more with less, how to better cope with an ageing workforce, skills need, etc.

Logistical organisation of the event is being carried out by CEEP. Travel and accommodation expenses of participants can be reimbursed in line with EC rules. You are invited to return the enclosed registration form to CEEP by email (david.anciaux@ceep.eu) or by fax (+32 2 218 12 13) by 5 February 2010.

The draft programme and the registration forms are enclosed.

Looking forward to welcoming you, I remain

Yours faithfully,

Ralf RESCH
General Secretary
